### Ragan on racing at Talladega Superspeedway:

“Talladega has been a really good track for us over the past few years and we need a good finish there more than ever. It’s a wide, smooth track which creates tight packs, and three and four-wide racing. It’s a track I can count on being fast at and we’ll see where our team really is this weekend. It’s important to stay out of trouble and have the right people to draft with. There are a lot of things that can go wrong at restrictor-plate racing. The goal is to get back up front where we belong and hopefully we can turn our luck around this weekend.”

### Crew chief Jimmy Fennig on racing at Talladega Superspeedway:

“Talladega is a place where you need to have a fast car that drafts well. David ran well there last year and I think we can do that again this weekend. The key is to stay out of trouble and have some drafting help out there. If everything goes well, we’ll get the finish we deserve and earn back some much needed points.”
