Fall	2	0	1	1	0	11	\$255,825
Cumulative	5	0	2	2	0	14	\$643,200

Ragan on racing at Talladega Superspeedway:

"Talladega is a track where things happen quickly and you need some luck to make sure you're in the right spot at the right time. It's a wide, smooth track which creates tight packs and makes for some exciting racing. It's all about making smart decisions the whole race and maybe giving a little at the beginning so you are around at the end. We should have a very fast UPS Ford; we're taking the new FR9 engine that Jack, Doug Yates and the engine department has put a lot of hard work into. A few weeks ago at Daytona we tested the new engine and have a lot of confidence in it. Five-hundred miles makes for a long race, so the goal will be to qualify well and stay out of trouble and hopefully have some help around when it counts to get a good finish."

Crew chief Jimmy Fennig on racing at Talladega Superspeedway:

"We are looking forward to taking the new engine to Talladega this weekend. We tested the new engine at Daytona a few weeks ago and had some good results. Talladega is a good track for us and David is strong there so we should be good this weekend. We really need some solid finishes to end the season on a good note and Talladega is a place where we can definitely make that happen."

FAST FACTS

- Ragan was the only Roush driver to finish inside the top 10 in both Talladega races in 2008.
- Ragan has visited Talladega Superspeedway five times in his Sprint Cup Series career. His best finish came in the fall of 2008 where he qualified 16th and finished third.
- In the spring of this year Ragan earned his first Nationwide Series victory at Talladega. Ragan has a total of three Nationwide Series starts, out of those three starts two are top-five finishes.
- Ragan also has one Camping World Truck Series start at Talladega. Ragan competed in the fall of 2006, qualifying second and finishing seventh.
- **UPS Maximum Center Recognition—Talladega Superspeedway**
The Jacksonville South Center (SLIC - 3204) in the North Florida District was selected for the November 1 *Amp Energy 500* at Talladega Superspeedway. Out of 11 Balanced Scorecard categories, the center was the district's top ranked group in eight sections—Average Growth Volume per assigned FSP, Assigned FSP with Producing Lead, Origin Scan, Delivery Scan, Exception Scan, Left in Building, Misloads, and Dart.
